Job title: Boiler and Combustion Specialist

Location: Hoover, Alabama

About the Opportunity:

During the past 31 years, ICT has built a worldwide reputation as a results-oriented company in the areas of pulverizer and boiler testing, combustion troubleshooting, consulting, and training services to the power industry. We excel in the areas from the pulverizer to the stack because we understand power plant processes and operations. As a complement to our core business, we offer a full array of diagnostic and compliance environmental testing services as well as operating a pilot scale SCR catalyst testing laboratory.

Innovative Combustion Technologies, Inc. provides a unique environment that fosters individual growth and rewards performance to our productive team members.

Position Description:

The Boiler and Combustion Technician would work alongside engineers and other technicians, performing a variety of field tests using specialized instruments to measure airflow, coal flow, flue gas species, and other parameters on large utility boilers. In addition, the individual may be required to perform lab/analytical tasks such as sieving coal samples and entering and checking test data, equipment maintenance, preparing for field service jobs, and other duties while in the Alabaster warehouse. Extensive travel is required, with a minimum of 50% of the total time spent in the field.

Responsibilities & Qualifications:

- Minimum education requirements of an Associate's degree, a Bachelor's degree, or equivalent technical training gained through military service and/or work experience
- Strong technical, mechanical, and computer skills (proficient with MS Word, Excel and Outlook)
- Strong math skills for analysis of field-testing data
- Experience working in a power plant or similar environment is a plus
- Hobbies that show technical inclination are also a plus
- Excellent physical condition and willing to work in physically demanding environments (high temperatures, loud, dusty, etc.)
- Available to travel extensively throughout the United States and abroad (up to 50% of the time)
- Valid driver's license with clean driving record: NO tickets, NO accidents. Clean Background. Drug-Free
- Applicants must be legally authorized for employment in the United States and will not require employer-sponsored work authorization now or in the future for employment in the United States

Benefits:

Our competitive salary and benefits package includes 401K, dental insurance, medical insurance, paid company holidays, and 12* paid days off a year. (*PTO earned on a monthly basis).
